

SIMPLY ENERGY'S STANDARD COMPLAINTS & DISPUTE RESOLUTION PROCEDURES

PRINCIPLES

Simply Energy always endeavours to manage each complaint it receives in a respectful, empathetic and dutiful manner towards the customer involved. Simply Energy regularly trains their representatives on techniques that try to encourage an amicable relationship between the customer and Simply Energy to remain after the complaint / dispute is resolved. For each complaint our representatives are encouraged to:

- Getting it right
- Being customer focused
- Being open and accountable
- Acting fairly and proportionately
- Putting things right

Simply Energy also encourages its representatives to be patient, articulate and be able to fairly balance the interests of the organisation with those of the consumer. Simply Energy always encourages its agents to communicate legitimate complaints to management so that the business can effectively assess any need for changes to policies and processes. Simply Energy will always ensure the training undertaken helps strengthen communication skills (this includes showing empathy and trust) and also alert agents to the different needs of consumers from different cultural, ethnic, economic or educational backgrounds.
